

Open Minds Open Doors Field Trip

On Thursday October 19th, 25 girls had the opportunity to visit Coe College for the Open Minds Open Doors conference. The event offered our students the opportunity to learn about career fields with foundations in science, technology, engineering and math (STEM). The workshops were voluntarily conducted by professional working women who introduced a variety of careers in the Cedar Rapids-Iowa City Corridor. The students had the opportunity to walk around Coe College and attend sessions located throughout the campus. We look forward to this event every year and plan to return fall 2018.
